

LSCAMP is a structured learning camp in contemporary topics in the fields of Logistics and Supply Chain Management (LSCM). The topics are presented and discussed from various perspective in a **casual and fun way**. This annual event has been held since 2017 by LSCM Laboratory Department of Industrial Engineering (IE) Institut Teknologi Sepuluh Nopember, Surabaya in collaboration with related institutions and associations.

This year's LSCAMP will discuss Operational Excellence in Cold Chain Management which is motivated by the need of excellent cold chain management to maintain the quality of perishable commodity in Indonesia, especially fish and other seafood products.

LSCAMP 2019 is open for academics, practitioners, students, and public.
